2. Fort George G. Meade has fully implemented an Environmental Management System (EMS) that conforms to Army policy and EMS requirements in Executive Order 13423. As required by AR 200-1, our EMS is mission-enhancing, conforms to the ISO 14001 standard, and is installation-wide in scope. As required by EO 13423, we have had a formal audit of our EMS, conducted by qualified auditors from outside the installation. The audit was conducted by a USAEC EPAS Team from 24-28 March 2008. We have corrected all external audit major non-conformances and minor non-conformances in a corrective action plan that has my approval and commitment for resolution.

3. Based on the above, Fort George G. Meade formally declares that our EMS is fully implemented in accordance with EO 13423 and Army policy.
